

Nimbolide

Nimbolide is a triterpene natural product isolated from the leaves and flowers of the neem tree (*Azadirachta indica*) and has been used as a traditional folk medicine for a variety of human illnesses. Nimbolide displays a variety of biological activities including anti-malarial and anticancer properties. Nimbolide is effective in inhibiting pancreatic cancer growth and metastasis. Most recently, Nimbolide has been found to induce autophagy mediated apoptotic cell death in breast cancer with epigenetic modifications.

Product Name	Cat. No.	Size	CAS. No.
Nimbolide	1891	5 mg, 25 mg	25990-37-8
EZSolution™ Nimbolide	9655	5 mg	25990-37-8
